EDUCATION

Bachelor of Computer Science, Honours

September 2024-Present

Carleton University, Ottawa, ON

- Third year standing
- Expected Graduation Date: 2028

RELEVANT SKILLS, EXPERIENCES AND ACCOMPLISHMENTS

Technical Skills

- Designed Python scripts to automate problem-solving tasks, improving runtime efficiency.
- Applied SQL queries at an entry level to organize and retrieve data.
- Adapted quickly to new technologies and troubleshooting utilities, ensuring minimal downtime.

Communication & Teamwork skills

- Provided step-by-step technical support to non-technical users, ensuring clarity and satisfaction.
- Collaborated with colleagues at Carleton Athletics to maintain a safe, welcoming environment for members.
- Documented technical processes and solutions clearly, enabling others to replicate troubleshooting steps.
- Fluent in English, Farsi, and Turkish, facilitating communication across diverse groups.

WORK EXPERIENCE

Fitness Center Attendants

September 2024-Present

Carleton Athletic, Ottawa, Ontario

- Handled membership inquiries and sign-ups, providing excellent customer service and assistance
- Maintained cleanliness and safety standards, contributing to a positive member experience.
- Performed administrative tasks, including managing member records and assisting with facility operations.

Junior IT Technician

September 2020- April 2021

Atatürk Anatolian High School, Tokat, Türkiye

- Assisted in setting up and configuring computers, printers, and other hardware devices.
- Conducted quality checks on completed assemblies to maintain a high standard of product quality.
- Assisted in data restoration in case of hardware failures or data loss incidents.

APPLIED PROJECTS

Discord Bot

- Designed and implemented a modular Discord bot using Python and discord.py, applying a cog based architecture for scalability and maintainability.
- Developed slash commands for time and weather features, integrating an external API and utilizing asynchronous programming.

Personal Portfolio Website HTML & CSS

- Built a responsive personal portfolio website using HTML and CSS to showcase projects, technical skills, and professional links.
- Structured content for clarity and accessibility, including project descriptions, downloadable resume, and contact information.

Soccer Data Base MySQL, Java

- Designed and implemented a normalized relational database for soccer using MySQL, modeling countries, regions, cities, leagues, seasons, clubs, players, and matches.
- Developed SQL scripts to create the schema, import and transform real-world geographic data, and write analytical queries using joins, aggregate functions, and date functions.
